

## **Infinity 1 Kit Order Form**

*"The **Infinity 1** is a generation beyond ANYTHING flying !", proclaimed by the Oshkosh 1991 Grand Champion.*

We are nearing completion of all RDT & E (Research, Development, Test and Evaluation) of the final *Infinity 1* prototype. As you know, the interest and response to the *I-1* has been tremendous.

**HERE'S THE DEAL -- Deposit and SAVE:** The price of the *Infinity 1* Quick Build Kit Aircraft will be going up when production starts, so don't delay. You can't build ANY scratch built airframe with tri-cycle electro-hydraulic retractable landing gear for these prices, or ANY other quick build kit that comes to you this complete for that matter! AND... this Kit comes to you with the wings, winglets and canard already pre-molded, completed and in primer -- you just add the pre-molded flight controls; the fuselage and strakes come to you complete as a top and bottom pre-molded tub in primer, you just put in the pre-molded bulkheads and systems, put on the top fuselage and strake half, firewall aft, the panel, and paint it, and you're ready to fly!

<i>Infinity 1</i> Quick Build Kit Price	\$32,635.00	
Deposit	- 1,000.00	Check #: _____
<b>Total Balance Due</b>	<b>\$31,635.00</b>	<i>plus applicable Sales Tax and S &amp; H</i>

*It's that simple!* The Total Remaining Balance is due prior to delivery [ plus appropriate Sales Tax (if applicable) and Shipping Charges (method to be determined by you) ]. You have nothing to lose! The money is deposited in a trust / escrow account. We also still have stock available at \$5 per share (1250 shares / \$6250 minimum). Initial here if you also want stock: \_\_\_\_\_
